- Wear Rating** Classified 33 under international standard EN685 rating, the Elements Collection can be used in all areas of commercial and residential applications. Please contact The Andrews Group for specific recommendations on area and colour selection.
- Warranty** The Elements Collection is warranted for 15 years in areas defined as fit for purpose. The terms and conditions of this warranty are available on request.
- Fire Rating** The Elements Collection has a Critical Radiant Flux (CRF) rating of 6.7 kW/m², and a smoke developed rating of 205 %mins, as tested to ISO9239.1. This allows the product to be installed in any areas of a commercial building under the requirements of the National Construction Code (NCC).

Elements Collection

Technical Specifications

- Slip Rating** The Elements Collection is rated R10 under the Wet Oil Ramp test as defined in AS4586. The Elements Collection is rated P2 under the Wet Pendulum Test as defined in AS4586 (2013). These ratings indicate a reduced risk of slip with this product.
- Sound Rating** The Elements Collection reduces impact sound by 11 decibels when adhered directly to a concrete slab. The Elements Collection reduces airborne sound by 5% when adhered to a concrete slab. These measurements are defined by ISO717.1/2, and mean that the product contributes positively to sound insulation in commercial and residential buildings.
- Installation** Please refer to Bolon Installation Guidelines or contact the Customer Service Team at The Andrews Group
